Axon

THE LATEST AXON EVIDENCE RELEASE
New for the September release - Universal login experience, enhanced proxy server security in ViewXL, export ALPR search results, 15 new e-learning videos in Axon Academy, and more.

The September release is scheduled for September 27, 2023. See the **Full Release Notes PDF** for details, including a list of resolved issues. You can also watch the September release notes video highlighting all the updates. The Axon Evidence Maintenance Schedule lists the updated schedule times for your region. We don't anticipate any downtime.

The September Axon release is coming soon. Below is a high-level look at the changes, along with a link to the complete release notes with more details.

Take me to the release notes

What's New in Axon Evidence This Month
New for the September release -

- **Agency audit trail**: Bug fix to address timeout errors in agency audit trails.
- **Case Management**: Case sharing updates allow users to review and cancel shared download links.
- **Third party Video Support**: Stay updated with our latest video format enhancements providing broader support and compatibility.
- **Axon Justice**: Discover Justice updates including audit event tracking for disclosure status, enhanced media download options, improved partner sharing communications, and cross-instance URL sharing.
- **Evidence Upload XT**: Enhanced error message details and a new batch failure

functionality.
- **Auto-Tagging**: Adjustments to address CAD entry deduplication including segmented deduplication processing, and reduced time spans to avoid lags in tagging.
- **Capture and View:** General bug fixes and performance improvements.
- **Evidence viewing and playback**: Seamlessly navigate through evidence in read only mode using the scrubbing bar in Evidence Player.

Other Axon Product Updates
See the full release notes PDF for details on the following items.

- **Axon Dock**: Firmware update for devices including TASER 10, TASER 7, Body 2, and Flex 2. The rollout of Universal login and overall performance improvements.
- **Axon ALPR**: New ALPR enhancements now offer the ability to export search results, enabling streamlined report generation and scheduling.
- **Axon ViewXL**: A ViewXL application update rolls out, featuring Universal login 2.0, better proxy server security, alphabetical evidence sorting, and a refreshed desktop icon.
- **Axon Academy**: 15 new e-learning videos are set to be added to Axon Academy on September 20, with topics ranging from multi-language invites to device checkout.
- **Axon Body 4**: Voice comms volume adjustments, improvements in POV connect/disconnect handling, and several audit log updates.
- **Community Request**: Enhanced accessibility in user input fields, including improved phone number validation and optimized error messages for screen readers.
- **Fleet 3**: New Universal login improved wireless mic audio quality, and compatibility with Axon Evidence settings including video pause, interior camera, audio streaming, and audio control at recording start.
- **Performance**: Export all BWC, Fleet, and video review metrics for any level in Command Hierarchy, along with new Performance reports for power cycling and high-priority videos ranked by PRVA.
- **Partner API updates**: Added “Originating Agency Identifier” (ORI) endpoint.
